Introducing One World Secondary School

This is a school that is located at East Africa in a country called Tanzania at **Kisangara**. The school is located at a mountain called **Kindoroko**. Our school is one year old and is also a new **international** school in Tanzania. I am also a student of One World. It started with twenty three students and six teachers who were known as:

Mr. Karl: He was a teacher of a good and better study *Learning to Learn*.

Mr. Robert and Hella: They were the teachers of *Mathematics* and *Theater*.

Mr. Peter: He was a teacher who comes from Tanzania. He taught us *English*.

Mr. Wilson: He was the teacher of *ICT/Computer* study.

Mr. Jan: He was a teacher who taught us *Basic Knowledge*.

Those were *teachers* which taught us one year ago. This school started with Pre-Form One. It is the best school in *Kilimanjaro*. Many people love this school because it has the best *food*, best *teachers*, best *environment*, best *patrons* and *matrons* and best *head master*. In our school we have big and small trips, for example to climb a *mountain* and that *mountain* was known as *Mt Kindoroko*. It was good, but some students were tired. I loved that trip. We were with Mr. Jan, Mr. Robert and Miss Hella. We also had a second trip to a factory called *EAST*

TITE. That factory is a factory of a certain man known as *Mohammed*. We also knew everything in that factory, and at the last trip we went to the *SNAKE PARK*. It was wonderful. We saw a python, a sand snake and a green mamba. We learnt a lot about the *PARK*. (jt)

Interview with Mr. Karl-Heinz Köhler – our headmaster

When did One World Secondary School start? How long did Pre-Form I stay?

The school started in October 2012. They stayed for 2 month.

This school is going until what level?

It is going until form 6.

Is One World Secondary School a UNESCO school?

Yes, it is among the UNESCO schools. Three months ago, I submitted our application to the Secretary General of the Tanzanian Commission for UNESCO and she said, "It is OK."

What does UNESCO deal with?

UNESCO deals with education, science, culture, and information all around the world.

What do you prefer, a boarding school or a day school?

I prefer a boarding school. Why? Because in a boarding school you can work together with your fellow student, even after the lessons.

What about to hire permanent teachers?

Now I have hired two permanent teachers, but I'm still searching for other excellent teachers.

Are all teachers going to be Tanzanian teachers?

No, there will be also some German teachers.

Are we going to do the NECTA and German exam also?

Yes, we will do both in Form 4. In form 2 you only do the NECTA exams. After Form 6 there is planned NECTA F6 and International Baccalaureate.

Is there also a pre-form one this year? And when are they coming?

Yes, there is. They are coming on October 14th.

Are there going to be exchange programs?

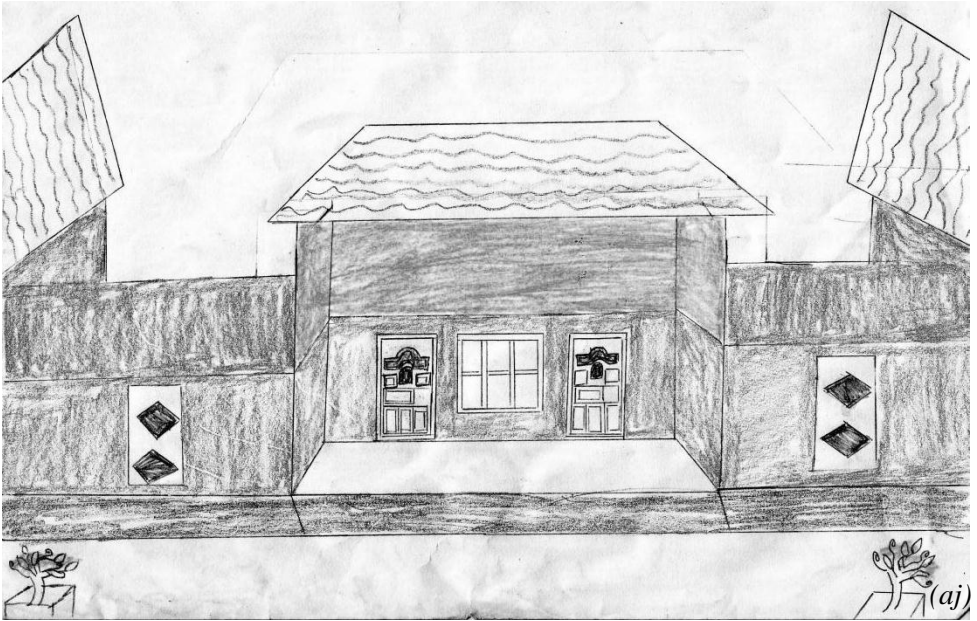

Yes, we will start in September with a workshop in our One World Secondary School. Students from GERMANY and Austria are going to participate. Also some students from KENYA. And our Form I, of course.

What building are you building now in the One World compound?

We are building two classrooms and a staffroom.

Thank you for the interview!
